

KIDS BY DESIGN: PERSONALIZED LEARNING FOR YOUR DISTRICT

Contact our Professional Learning team to design district or site specific training to meet your needs. KiDS will work with you to coordinate impactful learning sessions that support the goals of your team.

RECOMMENDED TIME: TBD

KIDS POWER USERS NETWORK

Attendees: All Users

The KiDS Power Users Network meets four times a year to encourage opportunities for districts to collaborate around best practices using data, build participant knowledge of existing features and tools, and gather input on the development of the KiDS platform.

RECOMMENDED TIME: 2 HOURS

Kern Integrated Data System

A program of the Kern Education Pledge

*No cost training and support options
to ensure full implementation and
workflow integration at all levels.*

KIDS ESSENTIALS: THE POWER OF DATA

Attendees: All Educator Groups

This training is intended as an introduction to KiDS and is best suited for new users. Attendees will orient themselves and learn about the power of the KiDS platform, specific data domains explored and hands-on practice to build capacity from the start. Customized and focused to the specific needs of the group (Admin, Clerical, Support Staff).

RECOMMENDED TIME: 2 HOURS

INSPIRING TEACHERS WITH KIDS 'MY CLASSROOM'

Attendees: Teachers, Academic Coaches, Administrators

The KiDS 'My Classroom' training equips educators with the necessary skills and knowledge to leverage their own students' data to inform their instructional practices. This training will provide a hands-on experience for teachers to explore real-time student level data. This training is also offered in a trainer or trainers format.

RECOMMENDED TIME: 1.5 HOURS

KIDS STUDENT SUCCESS: EMPOWERING SCHOOL COUNSELORS

Attendees: High School Counselors

Counselors play a crucial role in supporting student achievement. The KiDS Student Success module is key to making sure that counselors have all the data needed to

determine if a student is on track to meet educational goals. KiDS can support counselors in monitoring Dual Enrollment, CTE Pathway, A-G and graduation tracking. Learn how to create individualized plans to ensure success for all students.

RECOMMENDED TIME: 1.5 HOURS

LEVEL UP YOUR MTSS WITH KIDS

Attendees: Site Administrators, Support Staff, Behavior Interventionists, MTSS teams, Intervention Teachers, Counselors, Social Workers, SPED Staff

Learn how to quickly identify at-risk students using KiDS Early Warning module. Spend more time actively supporting students by streamlining your data collection process. Initial training and follow up support to ensure sustainability. Optional training for intervention setup and deployment available upon request.

RECOMMENDED TIME: 1.5 HOURS

UNLOCKING THE POWER OF KIDS INTERVENTIONS AND STUDENT PLANS

Attendees: District and Site Administrators, Behavior Interventionists, Intervention Teachers, Academic Coaches, Counselors

Many districts have siloed interventions which makes it difficult to monitor effectiveness. Learn how KiDS can house your interventions and student plans. Follow up support is provided as you integrate your interventions and plans into the KiDS platform.

**RECOMMENDED TIME: 3 HOURS (INITIAL SET-UP)
5 HOURS (FOLLOW-UP SUPPORT)**

LEVERAGING KIDS FOR A DATA DRIVEN PLC

Attendees: Grade Level or Department PLC's

Effective communication in teams is inextricably connected with data driven decision making, but PLC's often lack the tools, and data necessary to positively impact student achievement. KiDS can provide the coaching and support your teams need to take their PLC to the next level.

RECOMMENDED TIME: 1.5 HOURS

KIDS DATA CULTURE SERIES: ELEVATING YOUR KNOWLEDGE, SYSTEMS, PRACTICES AND LEADERSHIP

Attendees: District and Site Administrators, Leadership Teams, SIS Managers, CALPADS Coordinators

In today's data-driven world, educational leaders need to understand the strengths and weaknesses when it comes to data management, analysis and decision-making. Using the Data Use Self Assessment Toolkit, organizations are guided through the components necessary to build a more thorough system of data collection, entry, validation, integration and use.

RECOMMENDED TIME: 8 HOURS
